Beijing-Minusio, in early January 2012

#### Activities report 2011

Dear donors

Erwin made 8 visits to Qinghai in 2011 (March 22-25, April 4-6, June 1-4, July 17-21, Oct 5-10 and 24-27, Oct 30-Nov 4, Nov 29-Dec 3), twice together with Yolanda, and always accompanied by his loyal butler Xiao Song. Furthermore, Mr. Max Vögtli spent three weeks in Qinghai to assess earlier built schools. The purpose of all these visits was, similarly to earlier years:

1. To agree on the final acceptance of projects built in 2010

Jianglong (formal opening by the donor), Duoning (formal opening by the associates of Buhler-China), Gawuang (formal opening by the CEO of Buhler-Uzwil), Nuoriguo (formal opening by the donor), Lanxiangyang (formal opening of the canteen).

2. To inspect schools under construction and accept the buildings

Guanxiu, Guomari, Yalang, Nubu and Huanquhu were all built in decent quality and ready for the start of the school year 2011-12 in September. They were duly inaugurated, some in the presence of the donors. One school, Kanze, will be completed in 2012 only, due to adverse weather conditions.

3. To discuss possible projects for 2012

Three new school projects and the modernization of the computer equipments at Nisantang were selected and approved by the board of directors of the foundation\* in December.

4. To assess the status of earlier built schools.

A Chinese speaking Swiss student, Mr. Max Vögtli, has investigated as a volunteer 22 earlier built schools, together with Xiao Song in September, and proposed repair works. Moreover, he inaugurated the school at Shenaihe sponsored by his parents.

5. The discussions with the SIKA Group, were successful. The company has made the roofing of three new schools (Guomari, Nubu, Yalang) with their high-tech material, free of charge.

Updates on all the above projects have been put on the website, under a new outlook. Please visit: [www.schurtenberger.biz/swiss/](http://www.schurtenberger.biz/swiss/) Then click on the sub-chapter concerned.

The accounts and reporting of the foundation for 2010, established by the audit expert, Mr. Cristiano Botta in Lugano, were approved by the competent authorities in Berne (EDI) on November 14, 2011. The company's identification number of Switzerland-based companies (UID) remains unchanged CHE-113.998.792. The foundation continues to enjoy tax exemption.

May we reiterate that all that has been achieved in the last twelve months is the result of the many generous donors who supported the foundation's activities again, be it as a main or single donor for a specific project, be it by offering donations into the general accounts with small or big amounts. We would like, therefore, once again to express our warmest thanks to all of you for your continued support of the *Amici di Qinghai* or the *Swiss Friends of Qinghai*, and to confirm that all donations have been fully spent on the projects without any deduction for administration or the like. We also would like to extend our sincerest thanks to Erwin's colleagues at Swisstec who continued throughout the year to support the many school projects by valuable back office jobs such as controlling budgets and construction plans, or organizing the many trips, et al.

May 2012 bring to you all fortunes of this world in completeness,  
above all a very generous portion of personal happiness !

Yours truly  
Yolanda & Erwin
